Full Stack Developer | AI/LLM Integration

Full Stack Developer with an MCA and hands-on experience in **React.js, Node.js, Express.js, MongoDB, and PostgreSQL**. Experienced in building scalable web applications and RESTful APIs, with hands-on knowledge of **LLM integration, LangChain, LangGraph, and RAG**. Passionate about developing production-ready applications that combine modern full-stack technologies with AI.

Technical Skills

Languages	:	JavaScript, Python, HTML, CSS
Frontend	:	React.js, Tailwind CSS
Backend	:	Node.js, Express.js, REST APIs
Databases	:	MongoDB, PostgreSQL
AI/LLM	:	LLM Integration, Prompt Engineering, LangChain, LangGraph, RAG, Embeddings
Tools	:	Git, GitHub, Docker

Experience

Full Stack Developer Intern — Dec 2024 – Jun 2025
Tellme Digiinfotech Pvt. Ltd. — *Pune, Maharashtra, India*

- Contributed to the development of the **Bharat Microfinance Report (BMR)** platform in collaboration with NABARD.
- Developed dynamic and interactive dashboards for visualizing rural development and microfinance data using **React.js, Tailwind CSS, ApexCharts, and PostgreSQL**.
- Implemented map-based geographical visualizations using **Leaflet** to represent regional and development-related data.
- Developed frontend and backend functionality using **React.js, Node.js, and Express.js**.

Education

Master of Computer Applications — Aug 2023 – Jun 2025
PES Modern College of Engineering, SPPU — *Pune, Maharashtra, India*

- CGPA: **8.94**

Bachelor of Science — Jun 2019 – Aug 2022
Pandit Deendayal Upadhyaya Shekhawati University — *Sikar, Rajasthan, India*

- Percentage: **66.66%**

Projects

DocSphere AI – AI Document Assistant — *React.js, Node.js, LangChain, LangGraph, RAG, Qdrant* — Source Code

- Built an AI-powered document assistant that allows users to upload PDF documents and ask questions using **Retrieval-Augmented Generation (RAG)**.
- Implemented document processing using **PDF parsing, text chunking, embeddings, and Qdrant vector search** to retrieve relevant document context.
- Built an AI workflow using **LangChain and LangGraph** to retrieve relevant context and generate grounded responses using an LLM.
- Implemented **email OTP authentication, JWT authorization, Redis, Docker, and MongoDB** using a microservice architecture.

AI Resume Analyzer *React.js, Node.js, Express.js, MongoDB, Gemini/LLM* Source Code

- Built an **AI-powered resume analyzer** that compares resumes with job descriptions and generates personalized interview preparation reports.
- Integrated **Google Gemini** to generate resume match scores, technical questions, and behavioral questions.
- Implemented PDF resume processing using **Multer and PDF-Parse**, with reports stored in MongoDB.
- Added **JWT authentication, token-based usage, report management, and Razorpay payment integration**.

Digitalization of Bharat Microfinance Report (BMR) *React.js, Node.js, Express.js, PostgreSQL* Source Code

- Developed a centralized web-based platform for visualizing **rural development and microfinance data** in collaboration with NABARD.
- Built interactive dashboards using **React.js, ApexCharts, and Tailwind CSS** to visualize complex datasets.
- Integrated **Leaflet** for map-based visualization of geographical and development-related data.
- Developed backend functionality using **Node.js and Express.js** with PostgreSQL for data management.

Prescripto – Doctor Appointment & Prescription Management *React.js, Node.js, Express.js, MongoDB* Source Code

- Developed a full-stack **doctor appointment and prescription management** web application using the MERN stack.
- Implemented **secure user authentication and login** functionality.
- Built functionality for **doctor appointment booking and management**.
- Developed prescription management features and implemented **real-time updates** for appointment and application information.

Achievements & Extracurricular Activities

- **MCA Department Topper – 1st Rank** in both 2024 and 2025 at PES Modern College of Engineering, SPPU.
- **Winner – Digital Scavenger Quest**, M-Technophilia, February 2024.
- **Technical Fest Volunteer – M-Technophilia**, contributed to the organization and coordination of the MCA Department's technical fest, helping bring 50+ entries.
- **ASPIRE-2K24 – National-Level Project Competition**, participated in the competition and presented technical project work.
- **College Cricket Tournament**, participated in the college-level tournament, demonstrating teamwork and sportsmanship.
- **Singing – College Cultural Activities**, participated in singing activities as part of college cultural events during 2024 and 2025.
